Press Release

Medical Electronic Attachment, Inc. to Offer Electronic Medical Attachments to eLifeCare Solutions

Atlanta March 12, 2008– Medical Electronic Attachment, Inc. (MEA) announced today it has signed an agreement with eLifeCare Solutions to receive and process electronic Medical attachments from their Providers.

MEA's *FastAttach*™ system enables healthcare offices to transmit healthcare attachments – including vision, workman's compensation attachments, professional and institutional attachments, and other documents required to process claims – to MEA's repository, where Payors will be able to view them. *FastAttach*™ speeds up processing and eliminates the cost and hassle associated with mailing hard copy documents.

“Electronic attachments through our *FastAttach*™ program streamlines the process for Healthcare Providers and Payors,” said Thomas Hughes, President of MEA. “Adopting this technology is a nice fit with our ongoing commitment to the healthcare community to enhance our product offerings and improve revenue management.”

“We're pleased to work with this outstanding company on electronic attachments, and we look forward to the opportunity to register their providers,” said Thomas Hughes.

“The ability to capture electronic healthcare images and provide access to all healthcare participants further enhances our core interoperability solution”, said eLifeCare CEO Jim Peters. “MEA's partnership and proven solution will allow us to offer key functionality and benefit to our clients.”

About Medical Electronic Attachment, Inc.

MEA, the leader in attachment solutions for the health-care industry, offering systems designed to make insurance attachment submissions and processing as easy as possible for the patient, the provider and the Payor. After processing millions of electronic attachments, MEA's knowledge of the attachment industry is recognized by healthcare experts throughout the country. For more information on how to use the MEA *FastAttach* system, visit the MEA Web site at www.mea-fast.com
